COL (Ret) Laurie Moe Buckhout

Contributing Editor

Colonel (Retired) Laurie Moe Buckhout is the President and CEO of The Corvus Group, LLC, a strategic consulting and specialty services group bringing together senior leaders to solve difficult defense problems. She served as an Army Officer from 1984 to 2010. COL Buckhout attended James Madison University and was commissioned a 2LT in the Army Signal Corps in 1984, and from there served in leadership and staff positions from the 3rd Infantry Division to the White House, ending her career as Chief of Electronic Warfare for the Army's G3/5/7 Headquarters Staff. In addition to a Bachelor of Science Degree from James Madison University, she holds a Masters of Military Arts and Science, Command and General Staff College, Fort Leavenworth, Kansas; and Masters of Science in Information Systems Management, Webster University, St Louis, Missouri.

COL Buckhout's career highlights include nearly a decade of service overseas, to include a year as a battalion commander of the 32d Signal Battalion in Iraq, from 2003-2004. Other assignments included J6 Current Operations Division on the Joint Staff, and Chief of the Army Electronic Warfare Division, The Army Staff.

COL Buckhout is a subject matter expert in Electronic Warfare, speaking often at defense and industry forums addressing the asymmetric threat of spectrum warfare. She was elected as President of the International Electronic Warfare Association, the AOC, an organization charged with leading global efforts to raise the awareness of EW and Cyber, serving from 2010-2012. She is a frequent contributor to such print and television programs as the "Journal of Electronic Defense," "Inside Defense," "Jane's Defence Weekly," "National Geographic" and "The Army Times." COL Buckhout is also a guest lecturer at the National Defense University and the Marine Corps Command and Staff College. She recently sat the Defense Science Board Summer Study on 21st Century Electronic Warfare, and also serves as an advisory board member the Student Veterans of American and to several small businesses.
