

DISMOUNTED SYSTEMS

IFOKS **INOD Field Observation Kit, Sniper**

Turning the INOD into a high performance surveillance tool

Working in partnership with Vortex Optics™, the IFOKS allows a sniper to use the INOD/SPARTN as a high-performance surveillance tool as well as giving the ability for a spotter to call accurate corrections at night for a sniper. We started with their highly capable RECCE pro monocular and tailored it's designed to work perfectly with our mid-wave infrared thermal weapon sights. Greatly enhancing a second round hit probability due to INOD/SPARTN ability to read atmospheric, bullet trace and the visibility of projectile in flight to target.

 **LEONARDO DRS**

OUR TECHNOLOGY

Leonardo DRS is a leader in the design and manufacture of dismounted systems focusing on producing high quality, reliable, and cutting edge products to give the warfighter overmatch capability on the battlefield. Our family of thermal weapon sights are currently satisfying mission requirements around the globe.

FEATURES

- Designed for use with the FWS-S, SPARTN-E, and INOD Blk III
- HD optical system optimized with select glass elements to deliver exceptional resolution, cut chromatic aberration and provide outstanding color fidelity, edge-to-edge sharpness and light transmission
- Premium anti-reflective coatings on all air-to-glass surfaces provide superior light transmission for exceptional clarity and low-light performance.
- Gas purged and O-ring sealed for fogproof and waterproof performance in all conditions
- MIL based reticle for passive ranging.

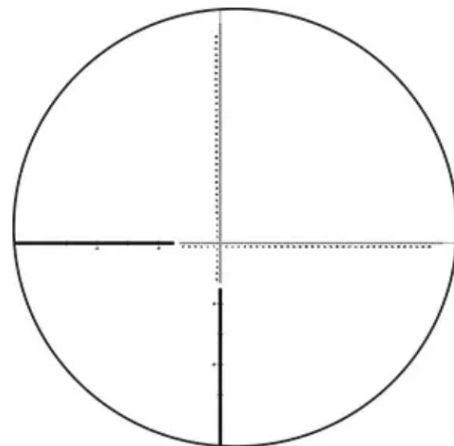

OPTICAL SPECIFICATIONS

Component	Description
Magnification	10x
Adjustable Focus	Yes
Adjustable Diopter	Yes
Dimensions	9.63 x 3.50 x 4.14 in 24.46 x 8.89 x 10.52 cm
Objective Lens Diameter	32mm
Reticle	Ranging Reticle
Eye Relief	14.5mm

RANGING RETICLE

MIL-based subtensions at 10X magnification. The angular measurements allow you to calculate ranges when comparing the reticle to objects of known size.
